When most people hear the name "Walt Disney," they think of Mickey Mouse, classic movies, and theme parks. What they often don't think of, or even know about, are his many innovative ideas that eventually led to the creation of the Walt Disney World Resort. From the first "talking" cartoon in 1928, to his bold vision of an Experimental Prototype Community of Tomorrow, Walt Disney always pushed the limits of technology. Innovation in Action highlights Walt's many accomplishments and takes your group on an unforgettable journey where they see, firsthand, how we make "magic."

During this 3-hour behind-the-scenes adventure, your facilitators will share stories about the early days of Walt's career and take your attendees to a variety of locations for an up-close look at innovation.

Some Highlights on the Tour:

Nursery and Tree Farm – The Walt Disney World Nursery and Tree Farm – See how Disney horticulturists create world-famous topiaries.

Textile Services – Visit the new state-of-the-art laundry facility, one of the largest in the world.

Main Street, U.S.A. – Discover how Walt's life and film career heavily influenced this turn-of-the-century location.

Journey to places most Guests never get to see for an incredible and entertaining experience you won't soon forget.

After this exciting afternoon, deluxe vehicles will be standing by to return your guests back to the hotel.

PLEASE NOTE: You must bring a valid Photo ID with you on the tour.
